

TO-4M SYN/BLEND TRANSMISSION FLUID

CANADA GOLD POWER SYNTHETIC BLEND TO-4M is formulated from premium base stocks and a specific additive system that meets the challenging demands of modern equipment. This multi viscosity product has outstanding performance over a wide temperature range and provides both excellent high temperature film thickness and low temperature pump ability for wear protection under severe loading conditions. It also provides excellent friction material and elastomer compatibility, while guarding against gear wear, rust, corrosion, foaming and oxidation.
