

ZINC FREE HYDRAULIC OIL

CANADA GOLD ZINC FREE HYDRAULIC OIL developed for use in high-speed, high-pressure piston, vane and gear pumps and to meet the stringent requirements of severe hydraulic systems using high output and high pressure pumps. They are formulated from high quality base stock and specifically selected super-stabilized additives and exhibit oxidation, thermal stability and exceptional corrosion protection for copper-based alloys. Zinc Free Hydraulic Oil is available in grades 22 and 46.

ISO Grade	46
Density @ 15°C	0.8688
Kinematic Viscosity	
cSt @ 40°C	46.37
cSt @ 100°C	7.36
Viscosity Index	123
Flash Point, °C	182
Pour Point, °C	-30

Applications: Meets or Exceeds Requirements for:

- DIN 51524 Part 2
- Denison: HF-O, HF-2
- Vickers: I-286-S, M-2950-S
- Cincinnati Milacron: P68, P69, P70
- USS: 127, 136

**Not approved for use in John Deere or Hitachi Equipment
